

Runr Website Content

Here's the full, final, page-by-page package — copy plus complete SEO fields — ready to paste into a Doc in your Drive. One assumption I made: I've used **<https://www.runr.in/>** as the canonical domain since your email is @runr.in (swap it site-wide if the live domain ends up different, e.g. the current .workers.dev is just a staging URL).

A few sitewide things to set once, not per page:

Sitewide meta/robots: `<meta name="robots" content="index, follow" />` on all real pages; noindex only on the thank-you/form-success page if one exists.

Sitewide Organization schema (place once, in the global `<head>`, ideally via `<script type="application/ld+json">`):

}
```

*(Replace the placeholder **sameAs** URLs with your real Facebook/YouTube/WhatsApp links — I only saw "findonrunr" confirmed as the Instagram handle in a reel caption.)*

Sitewide keyword strategy (for reference across pages): Primary — marketing strategy consulting, creative consulting agency, influencer marketing agency India. Secondary — brand strategy consultant India, content marketing consulting, reel production company, social media marketing agency India, podcast production company India, performance marketing agency, lead generation agency India. Local — marketing agency Bhavnagar, creative agency Gujarat.

Hero:

EVERY VISION BECOMES REALITY WITH RUNR

Sub-headline: Strategy first. Story always. We're a creative consulting studio that helps brands, businesses, and entrepreneurs figure out what to say and why — then bring it to life through content, influencers, and campaigns that actually move people.

Supporting line: Create. Inspire. Influence.

Intro/consulting statement:

We're not here to sell you content. We're here to solve your growth problem.

Anyone can generate a reel today. What's harder to find is someone who understands your business well enough to know which idea deserves to be made in the first place. That's the gap Runr fills. Before we script, shoot, or post anything, we sit down and understand your brand, your audience, and what "success" actually means for you. Then we bring in the right mix of strategy, storytelling, and

human creative talent to get you there — no cookie-cutter packages, no AI-generated guesswork passed off as a "content plan."

CTA button: Talk to Us — No Pitch, Just a Conversation

Services intro:

How We Help

Every engagement starts as a conversation, not a proposal. Depending on where your brand is, that conversation might lead to a single reel — or a full marketing strategy. Here's what that can look like.

(Services grid content — see Section 4 below; it lives on the homepage.)

"We Move Brands" section: Your Brand Is Next. Every brand has a moment when it decides to move. — CTA: Let's Build Your Brand

Influencers teaser (mirrors the dedicated Influencers page — see Section 5): Our Influencers — Voices That Drive Influence. From storytellers and creators to thought-leaders and trendsetters — our network of influencers isn't just about reach, it's about real impact. At Runr, we partner with voices that spark conversations, build trust, and move people.

Runr Kids teaser:

Runr Kids — Where Little Voices Make Big Moments

Runr Kids is our answer to a simple question: what would content for children look like if it were made by people who actually thought about the child watching it, not just the algorithm serving it? Adventure · Toys & Play · Educational · Creative · Entertainment. CTA: Building a kids' or family brand? Let's talk about content that parents trust too.

Runr Music teaser:

Runr Music — Create. Produce. Launch.

Real vocalists, real recordings, real emotion — the kind that's genuinely difficult to fake or automate. CTA: Need original music or vocal talent for your brand or project? Let's talk sound.

Footer strip: RUNR ★ STRATEGY ★ CONSULTING ★ CREATE ★ INSPIRE ★ RUNR KIDS ★ PODCAST ★ BRANDING ★ INFLUENCER MARKETING ★ CONTENT STRATEGY ★ VIDEO PRODUCTION ★ CAMPAIGNS ★ HUMAN-LED ★

Footer line: We craft strategy-led content, empower creators, and connect brands with voices that move people — because in a world of AI-generated noise, the brands that win are still the ones with a real human point of view.

About Us intro: We don't just follow trends — we help brands decide which ones are actually worth following. Every story we craft, every video we produce, and every campaign we launch starts with a question most agencies skip: will this actually move your business forward, or just your feed? That question is what turns content into a stronger voice, a lasting impression, and a moment that genuinely stands out.

Our Vision: To be the trusted strategic partner brands, creators, and communities turn to before they turn to a camera — a place where ideas are shaped by real human understanding first, and executed with craft second. We envision a future where creativity and honest strategy help brands build real connections with

people, while giving creators the platform and partnerships to turn their ideas into lasting work — not just content that disappears in a scroll.

Our Mission: Our mission is to help brands and creators connect with audiences through strategy that's honest and content that earns attention rather than demands it. From marketing consulting and digital storytelling to influencer marketing, podcasts, music, kids' content, and regional experiences — we bring ideas to life with purpose. We're less interested in producing more content and more interested in producing the right content: work that feels authentic, reaches the right audience, and delivers real value for both the brand and the community around it.

Founder's Note — Sagar Goswami, Co-Founder & CEO (*draft — please put this in your own words before publishing*): "We started Runr with one camera and no clients, which meant every early shoot had to earn the next one on merit, not marketing. That habit never left us. Today, even as the tools around content creation get faster and more automated, our job hasn't changed — it's still to understand a business well enough to know what's actually worth saying, and to whom. That's the part we don't outsource to a template or an algorithm, and it's the part we think brands need most right now."

Our Creative Team: Behind every idea is a team that thinks about the business first and the aesthetics second. Our Growth Gurus — Suhas Kalyan, Gurmeet Singh, and Prashant Solanki — lead strategy, client partnerships, and the thinking that shapes each campaign before a single frame is shot. Our Social Impact team — Nirvik Dobariya, Khushbu Rathod, and Diya Rathod — makes sure Runr's work reaches beyond a client's feed and into the community we actually live in.

Our Story So Far: 2022 — Two Friends, One Camera: Runr started as a reels side-hustle between two friends with one camera and zero clients. Every shoot was a pitch for the next one. 2023 — First Navyug Navratri: A small garba night in Bhavnagar sold out in three days. That night proved people didn't just want content from Runr — they wanted experiences. 2024 — Runr Goes City-Wide: Ahmedabad, Bhavnagar, and Runr Go launched within a year of each other. The team stopped being freelancers-with-a-name and became a studio with a bench. 2025 — Expansion: Runr grew through referrals and renewals. Clients kept the crew for years, with many relationships turning from one-off shoots into standing partnerships. 2026 — Strategy Takes the Lead (*replaces the currently duplicated 2023 text*): Runr evolves from a content and events studio into a full creative consulting practice — helping brands figure out what to say and why before we ever pick up a camera. Today — In Our Present: Runr was built on a simple belief: creative work shouldn't have to choose between quality and speed, or between strategy and craft. Today, we partner with brands, entrepreneurs, and a city that keeps showing up — bringing human judgement to work that increasingly needs it.

Awards & Recognition intro: Trust isn't only built online — it's built by showing up. *(Keep the existing list of sponsorships/community events exactly as published — Bhavnagar Box Cricket 2023, Bhavnagar Preschool Association 2024, Rotary Club cervical cancer drive 2025, JITO Bhavnagar 2025, UFOS Bhavnagar 2025, Dr. Diet Clinic 2026, Rotary Club Royal 2026, LVB Bhavnagar 2026, LVB Shetrunjaya Box Cricket 2026.)*

Closing CTA: Ready to Create Something Extraordinary. Let's build something iconic together — starting with a conversation, not a proposal. Button: Let's Connect *(Fix live typos: "REDY" → "Ready", "Togather" → "Together")*

Hero: Watch Together. Share Forever. — We don't just capture moments — we solve a different problem for every industry we work in. A jewellery brand needs its content to feel aspirational; a healthcare brand needs it to feel trustworthy; a real estate brand needs it to feel credible before it feels beautiful. Every reel, story, and frame here was built around that distinction first. Browse by industry to see how our thinking changes with the business.

Intro line above grid: No two industries sell trust the same way. Here's how that difference shows up in our work.

Categories (each with focus keyword + description + suggested per-page meta description, if built as separate pages):

Real Estate & Property — *Keyword: real estate video production agency* — For real estate, content has one job before any other: make an expensive, invisible decision feel credible. We build reels and campaigns that sell trust in the project and the developer, not just drone shots of a building. *Meta: Real estate video production and marketing by Runr — content built to sell credibility and trust, not just property visuals.*

Fashion & Lifestyle — *Keyword: fashion content agency India* — Fashion content lives or dies on whether it feels aspirational without feeling distant. We shape campaigns that make a brand's world something people want to step into, not just scroll past. *Meta: Fashion and lifestyle content agency Runr — aspirational, strategy-led campaigns and reels for fashion and lifestyle brands.*

Jewellery & Luxury — *Keyword: jewellery brand marketing agency* — Luxury buyers aren't won by discounts, they're won by story and craft. Our jewellery and

luxury work is built to communicate heritage, detail, and desirability at the pace luxury actually moves. *Meta: Jewellery and luxury brand content by Runr — storytelling built around craft, heritage, and desirability, not discounting.*

Food & Hospitality — *Keyword: restaurant content marketing agency* — Appetite is emotional before it's visual. We create content for restaurants, cafes, and hospitality brands that sells the experience of being there, not just the plate. *Meta: Food and hospitality content marketing by Runr — reels and campaigns that sell the experience, not just the menu.*

Education & Learning — *Keyword: education marketing agency India* — Parents and students are making a long-term decision under uncertainty. Our education content is built to build institutional trust and outcomes-driven credibility, not just campus beauty shots. *Meta: Education marketing and content by Runr — credibility-first campaigns for schools, institutes, and learning brands.*

Healthcare — *Keyword: healthcare content marketing agency* — Healthcare content has to earn trust while staying sensitive and accurate — there's no room for hype. We build campaigns for healthcare brands that inform and reassure first, and promote second. *Meta: Healthcare content marketing by Runr — trust-first, sensitive, and accurate campaigns for clinics, hospitals, and health brands.*

Events & Experiences — *Keyword: event coverage agency India* — An event lives for a few hours and needs to live online forever. We capture and edit event content so the energy of being there translates into something worth reliving and sharing. *Meta: Event coverage and content production by Runr — capturing live experiences in a way that keeps working long after the event ends.*

Early Education — *Keyword: preschool marketing content agency* — Preschools and early learning brands are being evaluated by parents on warmth and safety as much as curriculum. We build content that reflects both — playful, but never careless. *Meta: Early education and preschool marketing content by Runr — warm, safety-conscious storytelling for parents evaluating trust.*

Interior & Décor — *Keyword: interior design content agency* — Interior brands sell a feeling of "what my life could look like." We build content that helps people picture that transformation in their own space, not just admire someone else's. *Meta: Interior and décor brand content by Runr — visual storytelling built to help buyers picture transformation, not just admire it.*

Food & Confectionery — *Keyword: food brand content agency India* — For packaged food and confectionery brands, shelf appeal has to translate into scroll appeal. We build content that keeps a product's craftsmanship and indulgence front and center. *Meta: Food and confectionery brand content by Runr — craft-led visual storytelling that turns shelf appeal into scroll appeal.*

Manufacturing & Industry — *Keyword: B2B industrial content marketing agency* — B2B and industrial brands are usually the hardest to make interesting — and the most underserved by generic content agencies. We build content that communicates scale, precision, and capability to the buyers who actually make purchasing decisions. *Meta: Manufacturing and industrial brand content by Runr — content built for B2B buyers, communicating scale, precision, and capability.*

Social Impact — *Keyword: social impact content agency* — Some of our most meaningful work isn't for a paying client at all — it's the causes and community initiatives we support directly. We bring the same craft to social impact work as we do to any brand campaign, because the audience deserves it just as much. *Meta: Social impact and community content by Runr — the same strategic craft applied to causes and community initiatives, not just brands.*

Closing CTA: Don't See Your Industry Here? That's usually the most interesting conversation, not a dealbreaker. Every sector we haven't worked in yet is one we're genuinely excited to think through with you. Button: Start That Conversation

4. SERVICES (lives on the Home page — no separate URL currently)

Focus Keyword (for this section's on-page SEO): marketing strategy consulting services **Supporting Keywords:** reel production, influencer marketing, performance marketing agency, podcast production, lead generation agency

Section intro: We don't lead with tools or trends. We lead with the question "what does your business actually need right now?" — then draw on whichever of these makes sense.

00. Marketing Strategy Consulting (*new — recommended flagship, listed first*) — Before there's a single reel or campaign, there's a decision about who you're talking to and why they should care. We work directly with founders and marketing teams to build that clarity — brand positioning, audience strategy, campaign planning, and marketing direction that every other service exists to execute. Tags: Clarity · Positioning · Direction · Accountability

01. Reel Production — A reel is easy to make and hard to make well. We start by asking what it needs to achieve — awareness, trust, a sale — and script, shoot, and edit backward from that answer. Tags: Engaging · Storytelling · Impactful · Strategic

02. Content Creation — Content that works isn't the content that's easiest to produce — it's the content built around a real understanding of your audience. Tags: Engagement · Strategy · Community · Visibility

03. Social Media Marketing — Growing a social presence isn't about posting more; it's about posting with intent. We manage and grow your presence across platforms with a strategy built around your specific business goals. Tags: Innovation · Credibility · Awareness · Growth

04. Entrepreneur Collaborations — Some of the best growth comes from the right partnership, not the biggest campaign. We identify and build collaborations between brands and entrepreneurs whose audience and values genuinely align. Tags: Authenticity · Reach · Engagement · Visibility

05. Influencer Marketing & Brand Promotions — Influencer marketing only works when the fit is real. We handle creator selection, campaign planning, and execution with one filter above all others: would this creator's audience actually trust this brand? Tags: Storytelling · Consistency · Quality · Reach

06. Podcast Creation & Management — A podcast is a long-term relationship with an audience, not a content format. We support the full journey — recording, editing, publishing, and promotion. Tags: Consistency · Craft · Voice · Growth

07. Lead Generation — Attention is not the goal — qualified interest is. We build targeted campaigns and funnels designed around your actual sales process. Tags: Targeting · Conversion · Growth · ROI

08. Performance Marketing — We treat every rupee of ad spend as a hypothesis to be tested, not a bet. Tags: Testing · Optimization · ROI · Transparency

5. INFLUENCERS — /influencers/

Title Tag: Runr Influencers — In-House Creator Network & Brand Collaborations

Meta Description: Meet Runr's in-house influencer tribe and explore cross-brand collaborations — real creators, matched to brands by genuine fit, not follower count. **Canonical:** <link rel="canonical" href="https://www.runr.in/influencers/" />

H1: Our Tribe — Creative Voices **Focus Keyword:** influencer marketing agency India **Supporting Keywords:** in-house influencer network, entrepreneur collaboration agency, brand collaboration agency Gujarat

Page Copy:

Hero: A dynamic community of creators, storytellers, and trendsetters who shape conversations, inspire audiences, and bring fresh ideas to life across digital platforms. What makes this tribe different isn't reach — plenty of accounts have reach. It's that every person here has an audience that actually listens to them, which is a much harder thing to fake, buy, or automate.

Section 1 — The Runr Tribe: Why we built an in-house tribe instead of just brokering deals — most influencer marketing agencies are middlemen who connect you to creators they don't really know. We built our own roster instead, so when we tell a brand "this creator is right for you," it's based on years of actually working together, not a media kit. (*Directory: Parthraj Vala, Bhumi Makwana, Mehul Vadodaria, Feni Ajwalia, Diya Rathod, Prachi Gohel, Urvashi Ramanuj, Prachi Thakkar, Saloni Parmar, Prapti Ajwalia, Shruti Shah, Twisha Maniar — keep as-is.*) CTA (brands): Tell us your audience — we'll tell you which of our tribe actually reaches them, or why none of them are the right fit. CTA (creators): Think you belong in this tribe? Introduce yourself.

Section 2 — Beyond Our Tribe: Collaborations That Go Both Ways (*new section*): Not every good match is already on our roster. We regularly broker collaborations between brands, entrepreneurs, and creators outside the Runr tribe. If the right voice for your brand isn't one of ours, our job is to help you find and negotiate that partnership anyway. CTA: Have a specific collaboration in mind — a creator, a brand, an entrepreneur? Tell us about it.

Closing line: Whether it's someone already in our tribe or a connection we help you make outside it, the standard is the same: would this partnership feel earned to the audience watching it, or would it feel bought?

6. PODCAST — /podcast/

Title Tag: Runr Podcasts — Real Conversations on Voices, Culture & Wellness **Meta**

Description: Runr Podcasts brings five original shows — from women's stories to folk culture and wellness — real conversations, bold perspectives, made by Runr.

Canonical: <https://www.runr.in/podcast/> **H1:** Every Voice. Every Story. **Focus Keyword:** podcast production company India

Hero — Runr Spotlight: Every Voice. Every Story. — Explore the best moments from Runr Originals, turned into reels and shorts worth sharing. Every conversation here is unscripted on purpose — real people, real perspectives, the kind of content that's genuinely hard to fake with a template or a script generator.

Show Directory:

- Atithi — Local Voices: The people who shape a city rarely get asked to tell their own story. Atithi hands them the mic.
- Nav Narayani — Women Empowerment: Conversations with women who are building, leading, and changing what's possible — in their own words.
- Change Makers — Life Lessons: The lessons that don't fit in a quote card — how real people navigated the hard, unglamorous parts of change.
- Sahitya Safar — Folk Culture: A journey through the stories, language, and folk traditions that don't always make it online — until now.
- Swasthya Story — Wellness Wisdom: Honest conversations about wellness, without the wellness-industry sales pitch.

Why You Should Listen: Diverse Voices — conversations that bring genuinely different perspectives together. Meaningful Stories — real stories that inspire and spark change, told at the length they deserve. Community First — built to amplify voices from the community, not to amplify Runr. Impact Driven — ideas meant to create action, not just engagement metrics. Made by Runr — curated with passion, delivered with purpose.

Closing bridge: Want a Show Like This for Your Brand? Everything you just heard is also what we build for clients. If you've been thinking about a podcast for your brand or your own name, let's talk about what that could sound like. Button: Let's Talk Podcasts

7. TESTIMONIALS — /testimonials/

Title Tag: Client Testimonials — What It's Like to Work With Runr **Meta**

Description: Real feedback from Runr's clients across India — on strategy, communication, and results, in their own words. **Canonical:** <https://www.runr.in/testimonials/> **HI:** Trusted Voices. Proven Impact.

Focus Keyword: Runr client reviews **Supporting Keywords:** creative agency testimonials India, influencer marketing agency reviews

Note on Review/AggregateRating schema: I'd hold off adding [AggregateRating](#) or [Review](#) schema here unless the ratings/counts come from a verified source (e.g., your actual Google Business Profile rating). Fabricating a star rating or review count in schema violates Google's structured data guidelines and risks a manual action — better to skip it than invent numbers.

Page Copy:

Hero: Trusted Voices. Proven Impact. — We don't just create experiences — we create relationships that outlast the campaign. Every testimonial below reflects something we care about more than any single metric: whether a client felt genuinely understood, kept in the loop, and treated like a partner rather than an account number. *(Testimonial wall below stays exactly as currently published — do not edit the quotes, names, or locations.)* Closing CTA *(new)*: Want to Be Our Next Story? Every relationship on this page started the same way this one could — with a conversation about where your brand is today. Button: Start the Conversation

Flag before publishing (data issue, not copy): the "H. H. Jayveerrajsinh Gohil" name floating above several unrelated reviews, the stray "Scaling SaaS Operations with AI Automation" heading appearing above multiple creative-services testimonials, and the Sarah Mitchell/BrightPath SaaS CRM-automation testimonial all look like mismatched data pulled from a different project — worth a developer pass before this goes live.

Before you paste this into Drive — implementation checklist

Confirm the real production domain and swap every canonical/schema URL above from the runr.in placeholder if it turns out to be different. Decide whether Media Hub's 12 categories and the podcast's 5 shows become real separate pages (strongly recommended for SEO) — if not, drop the per-item meta descriptions and just keep the on-page copy. Fix the three flagged typos/bugs (About Us "REDY"/"Togather" and duplicated 2026 timeline, Contact Us stray quotation mark, Testimonials mismatched data). And get real numbers into the Podcast page's subscriber/episode stat bar before it goes live — zeros there hurt more than an absent counter would.
